COMFORTABLE WEARING – ADJUSTABLE HEADBAND

Forget about headphones that squeeze your head like a vice. OnRiff 4 CNS-CBTHS4 features a fully adjustable headband that molds perfectly to your head shape, ensuring a comfortable and secure fit. Plus, you get soft, breathable ear cushions for extra comfort. No more headaches or ear fatigue, just pure listening pleasure.

A series of red geometric shapes, including a parallelogram, a rectangle, and a trapezoid, arranged in a pattern on the left side of the page.

LISTEN LONGER

Who needs a power nap when your headphones can last all day (and then some)? Enjoy up to 50 hours of continuous playback on a single charge. And when you're not listening, they go into standby mode, conserving energy for your next audio adventure.

LOW-LATENCY GAMING MODE

Gamers, rejoice! The OnRiff 4 CNS-CBTHS4 features a low-latency gaming mode that ensures your audio is perfectly synchronized with the action on screen. This mode is enabled through advanced audio processing technology that minimizes audio delays. No more frustrating delays between sound and visuals, just immersive, lag-free gaming experiences.

TOUCH CONTROL

The touch-sensitive panels on the device are designed to be highly responsive and accurate, so gestures are registered without delay. This makes it easy to control your audio, answer calls, or activate your voice assistant with a simple touch. Say goodbye to fiddling with buttons.

10M OPERATING DISTANCE

The powerful Bluetooth 5.3 chip and advanced antenna design ensure a strong and stable connection, even in challenging environments. Enjoy the freedom of wireless listening with a reliable operating distance of up to 10 meters. Whether you're lounging on the couch, working at your desk, or moving around your home, your music will keep playing seamlessly.

ELEGANT COLORS

These headphones are available in a range of stylish colors to suit your personal taste and style. Whether you prefer classic black or a bold, vibrant hue, there's a color option to match your personality.

LIGHTWEIGHT DESIGN

Comfort is key, and this model is designed to be lightweight and easy on your ears. The lightweight construction is achieved through careful material selection and engineering. You can wear these headphones for hours without experiencing fatigue or discomfort.

BUILT-IN MICROPHONE FOR PHONE CALLS AND VOICE ASSISTANCE

Stay connected on the go with the built-in microphone. It's strategically placed to capture your voice clearly, even in noisy environments. Take calls, send messages, or access your voice assistant hands-free – your voice commands will be heard loud and clear.

USB-C PORT FOR CHARGING

Time to part ways with proprietary charging cables. The OnRiff 4 CNS-CBTHS4 features a convenient USB-C port, making it easy to charge your headphones, smartphone, or other devices with the same cable and reducing clutter.

ENERGY EFFICIENT BT 5.3

These headphones incorporate a highly optimized Bluetooth 5.3 chip that intelligently manages power consumption. This translates to extended battery life and longer listening sessions without worrying about running out of juice. Say goodbye to frequent charging!

CAPACITIVE BATTERY 500 MAH, 2H CHARGING TIME

Power up your listening experience with a high-capacity 500mAh battery designed to provide optimal power efficiency and longevity. The 2-hour charging time ensures that you can quickly get back to listening, minimizing downtime. Enjoy extended playtime and quick recharge times.

500mAh

LISTEN LONGER

Who needs a power nap when your headphones can last all day (and then some)? Enjoy up to 58 hours of continuous playback on a single charge. And when you're not listening, they go into standby mode, conserving energy for your next audio adventure.
