Штрих-код: 8422160057625

УКТЗЕД: 8516310090

Гарантія: 2 роки

UFESA Digital Pro Ionic-Tech hair dryer

The Pro Ionic-Tech hair dryer is equipped with a high-speed digital motor. Take care of your hair with maximum protection thanks to the intelligent temperature sensor that continuously measures the temperature of the airflow, automatically alternating between hot and cold air to prevent damage that can be caused by excessive heat.

It will dry hair very quickly thanks to its 110,000 rpm speed, guaranteeing exceptional results in a very short time. A powerful airflow of up to 22 m/s reaches the hair root directly, quickly removing excess water from the hair surface and further accelerating the drying process.

A standout feature is the ion generator, which releases over 10 million units/cm³ of negative ions per second. This not only helps to remove moisture from the hair, but also reduces static electricity, leaving hair shiny, smooth and frizz-free. It has 3 speeds and 3 temperatures, adapting to all your needs, and also has a cold air blowing option to help you fix your hairstyle. The digital display makes it easy to see the selected temperature and speed, giving you precise control over the drying process.
