Гарантія: 2 роки

### HAIR STRAIGHTENER UFESA X-TREME/INFRARED

The X-Treme Infrared hair straightener quickly straightens or curls hair. It features X-Treme Infrared technology that regulates the hair's natural moisture content, providing extra moisture and protection. The ceramic coating of the straightener with argan oil-based micro-conditioners leaves hair shiny and soft with every stroke.

The 100mm floating plates provide fast, even straightening with professional results, while the user-friendly digital display makes it easy to adjust the temperature with 5 settings from 150°C to 230°C for all hair types, whether fine, normal or coarse.

The straightener with curved tips provides versatility, allowing you to straighten or curl your hair with ease. It has an automatic safe shutdown after 60 minutes. The package includes a heat-resistant protective case.
