

PORTABLE WIRELESS SPEAKER ONMOVE 15

Music makes everything better – even more so if you can have a good speaker wherever you go. We just might have a good example: the Canyon OnMove 15 Portable Speaker. With 40W of power and full-color ambient light, your life will definitely get brighter – and louder!

The three-mode equalizer brings clear sound and powerful bass. This speaker has Bluetooth 5.0, AUX input, and can read music from an SD card. It is also IPX6 waterproof, so no rain or splashes will get in the way of your tunes.

There's also a built-in mic, so technically, nothing stops you from using it as a loudspeaker for phone conversations. True wireless mode allows you to connect and sync two speakers at once and use them as a full-scale sound system.

With a BT connection and 80% volume, you'll get around 6 hours of playtime, and it charges back to full battery in just 4 hours.

Finally, we have two color options: really dark gray and really cool beige. **Choose one or pick both and brighten up your event – whatever it might be!**

PORTABLE DESIGN WITH CARRYING LOOP

This speaker is a compact powerhouse. Thanks to its shape and a special carrying loop, it's easy to carry around. Plus, you can hang it somewhere!

DEEP STEREO SOUND

We used some mighty speakers here to bring you this deep stereo sound.

Combined with a three-mode equalizer, you have everything for a perfect listening experience.

CONVENIENT HANDSFREE FUNCTION

Use the built-in mic for calls.
You'll definitely hear your caller well!

WATERPROOF

IPX6-class water resistance with waterproof fabric ensures nothing gets in the way of music.

Forest hike or beach party with rain or splashes? Sure, this speaker was built for that.

INCREDIBLE PLAYTIME

6 hours

With Bluetooth connected, a large battery guarantees 6 hours of playtime at 80% of volume.

After that, you just find a power source, and it gets back to full battery in 4 hours. At this point, you might need a recharge, too!

FULL-COLOR RGB AMBIENT LIGHT

The ambient light feature will be a party hit when the night comes: it's a real light show with all possible combinations of color.
