

Magnetic wireless power bank OnPower 505

When portability meets stability, you get the OnPower 505 – a wireless power bank that will keep your devices charged without the bulk. With its ultra-slim 8.9mm profile and lightweight design, this device slips effortlessly into your pocket, bag, or even the palm of your hand. What’s a better choice for life on the move?

Equipped with a dependable 5000mAh Li-Polymer battery, the OnPower 505 provides enough power to recharge your essentials, like topping up your phone during a busy workday or keeping your earbuds ready during a weekend getaway. The 15W wireless charging pad means cable-free simplicity: just snap your device into place and let the OnPower 505 do the rest. Since speed matters, the 20W Type C port will charge your devices rapidly, saving precious time.

The power bank is crafted from premium aluminum alloy and fireproof ABS+PC materials for long-lasting durability and style all in one. Despite the small size (105mm x 66mm x 8.9mm), it delivers big performance, proving that great things do come in small packages. Whether you're handling a busy schedule or starting new adventures, the OnPower 505 has the reliability and convenience to keep you powered up.

AIRLINE-FRIENDLY POWER FOR YOUR TRAVELS

The power bank's 5000mAh capacity complies with airline safety standards, so you can bring it along on all your flights. Small yet efficient, it will keep your devices charged during long layovers, flights, or hectic travel days. Thanks to the OnPower 505, you're never without power when you need it most.

WIRELESS CHARGING

No more cable clutter with the power bank's 15W wireless charging capability. Place your compatible device on the charging pad, and let the power flow. Ideal for charging smartphones, earbuds, and other Qi-enabled devices, the power bank combines convenience with efficiency.

20W TYPE C PORT

The 20W Type C port delivers high-speed power with less downtime for your phone, tablet, or accessories, so you focus on what matters most. This port isn't just for output; it also doubles as the input, so you can recharge the OnPower 505 itself quickly and conveniently. Thanks to the Type C port, it's a truly versatile solution that works seamlessly with the latest tech.

ULTRA COMPACT: POWER ON THE GO, WITHOUT THE BULK

At just 105mm x 66mm x 8.9mm, the OnPower 505 fits effortlessly into your life. It's the ideal portable charging solution for a quick outing or packing it in your bag for an entire trip. This compact form factor doesn't sacrifice performance – this means you can have powerful charging capabilities without the bulk.

CONVENIENT CONNECTORS: TYPE C PORT & WIRELESS

Thanks to the power bank's Type C port, you can enjoy high-speed wired charging when time matters. Whether you need to power up quickly or prefer a tangle-free solution, the OnPower 505 has got both options, so you can charge multiple devices however you'd like.
