

Smart watch

Hexagon SW-88

Are you looking for a smartwatch that does it all? Meet Hexagon, the stylish and versatile smartwatch that combines cutting-edge technology with a sleek design.

This watch features a stunning HD AMOLED screen with 16.7 million colors, bringing your watch faces to life. With the Always-On display, you can always see the time at a glance without having to raise your wrist.

With built-in Bluetooth calling and voice assistant support, the Hexagon keeps you connected to the world without ever having to take your phone out of your pocket. Make calls, send messages, and get answers to your questions with just a simple voice command.

The Hexagon is so much more than just a stylish accessory; it's also a powerful health and fitness tracker. With dynamic heart rate monitoring, accurate SpO2 measurement, and breath training exercises, you can track your vital signs and improve your overall health. It also helps you manage your stress and get the rest you need. With stress level measurement and sleep monitoring, you can identify patterns and make lifestyle changes to improve your well-being.

The Hexagon comes with two interchangeable straps, so you can easily change your look to match your outfit or mood. With over 140 watch faces to choose from, you can find the perfect design to express your personality.

This device is built to last with its IP67 waterproof rating, so you can wear it in the rain or while washing your hands. With a battery life of up to 11 days on a single charge, you can enjoy all the features of this smartwatch without having to worry about constantly recharging. Order yours today and experience the future of wearable technology.

HEALTH MONITORING

Track heart rate, SpO2, stress, and sleep for a comprehensive understanding of your health. Manage menstrual cycles with the female calendar for better reproductive health planning.

ELEVATE YOUR WORKOUT

Choose from 123 sports modes to find the perfect activity for your goals. Monitor real-time metrics like distance, pace, calories burned, and heart rate to track your progress and stay motivated.

WELLBEING

Practice breath training, meditation, and relaxation techniques to reduce stress and improve your overall well-being. Enhance your focus and concentration with mindfulness exercises.

STAY CONNECTED

Make calls, receive notifications, and use your voice assistant to stay connected to your world. Easily access important information and communicate with friends and family.

UNIVERSAL COMPATIBILITY

Works with all kinds of smartphones and devices. Easily integrate into your digital lifestyle and enjoy seamless connectivity.

UNIQUE DESIGN

Stylish and ergonomic design. Looks great and feels comfortable on your wrist. Choose from a variety of customizable watch faces and straps to express your personality.

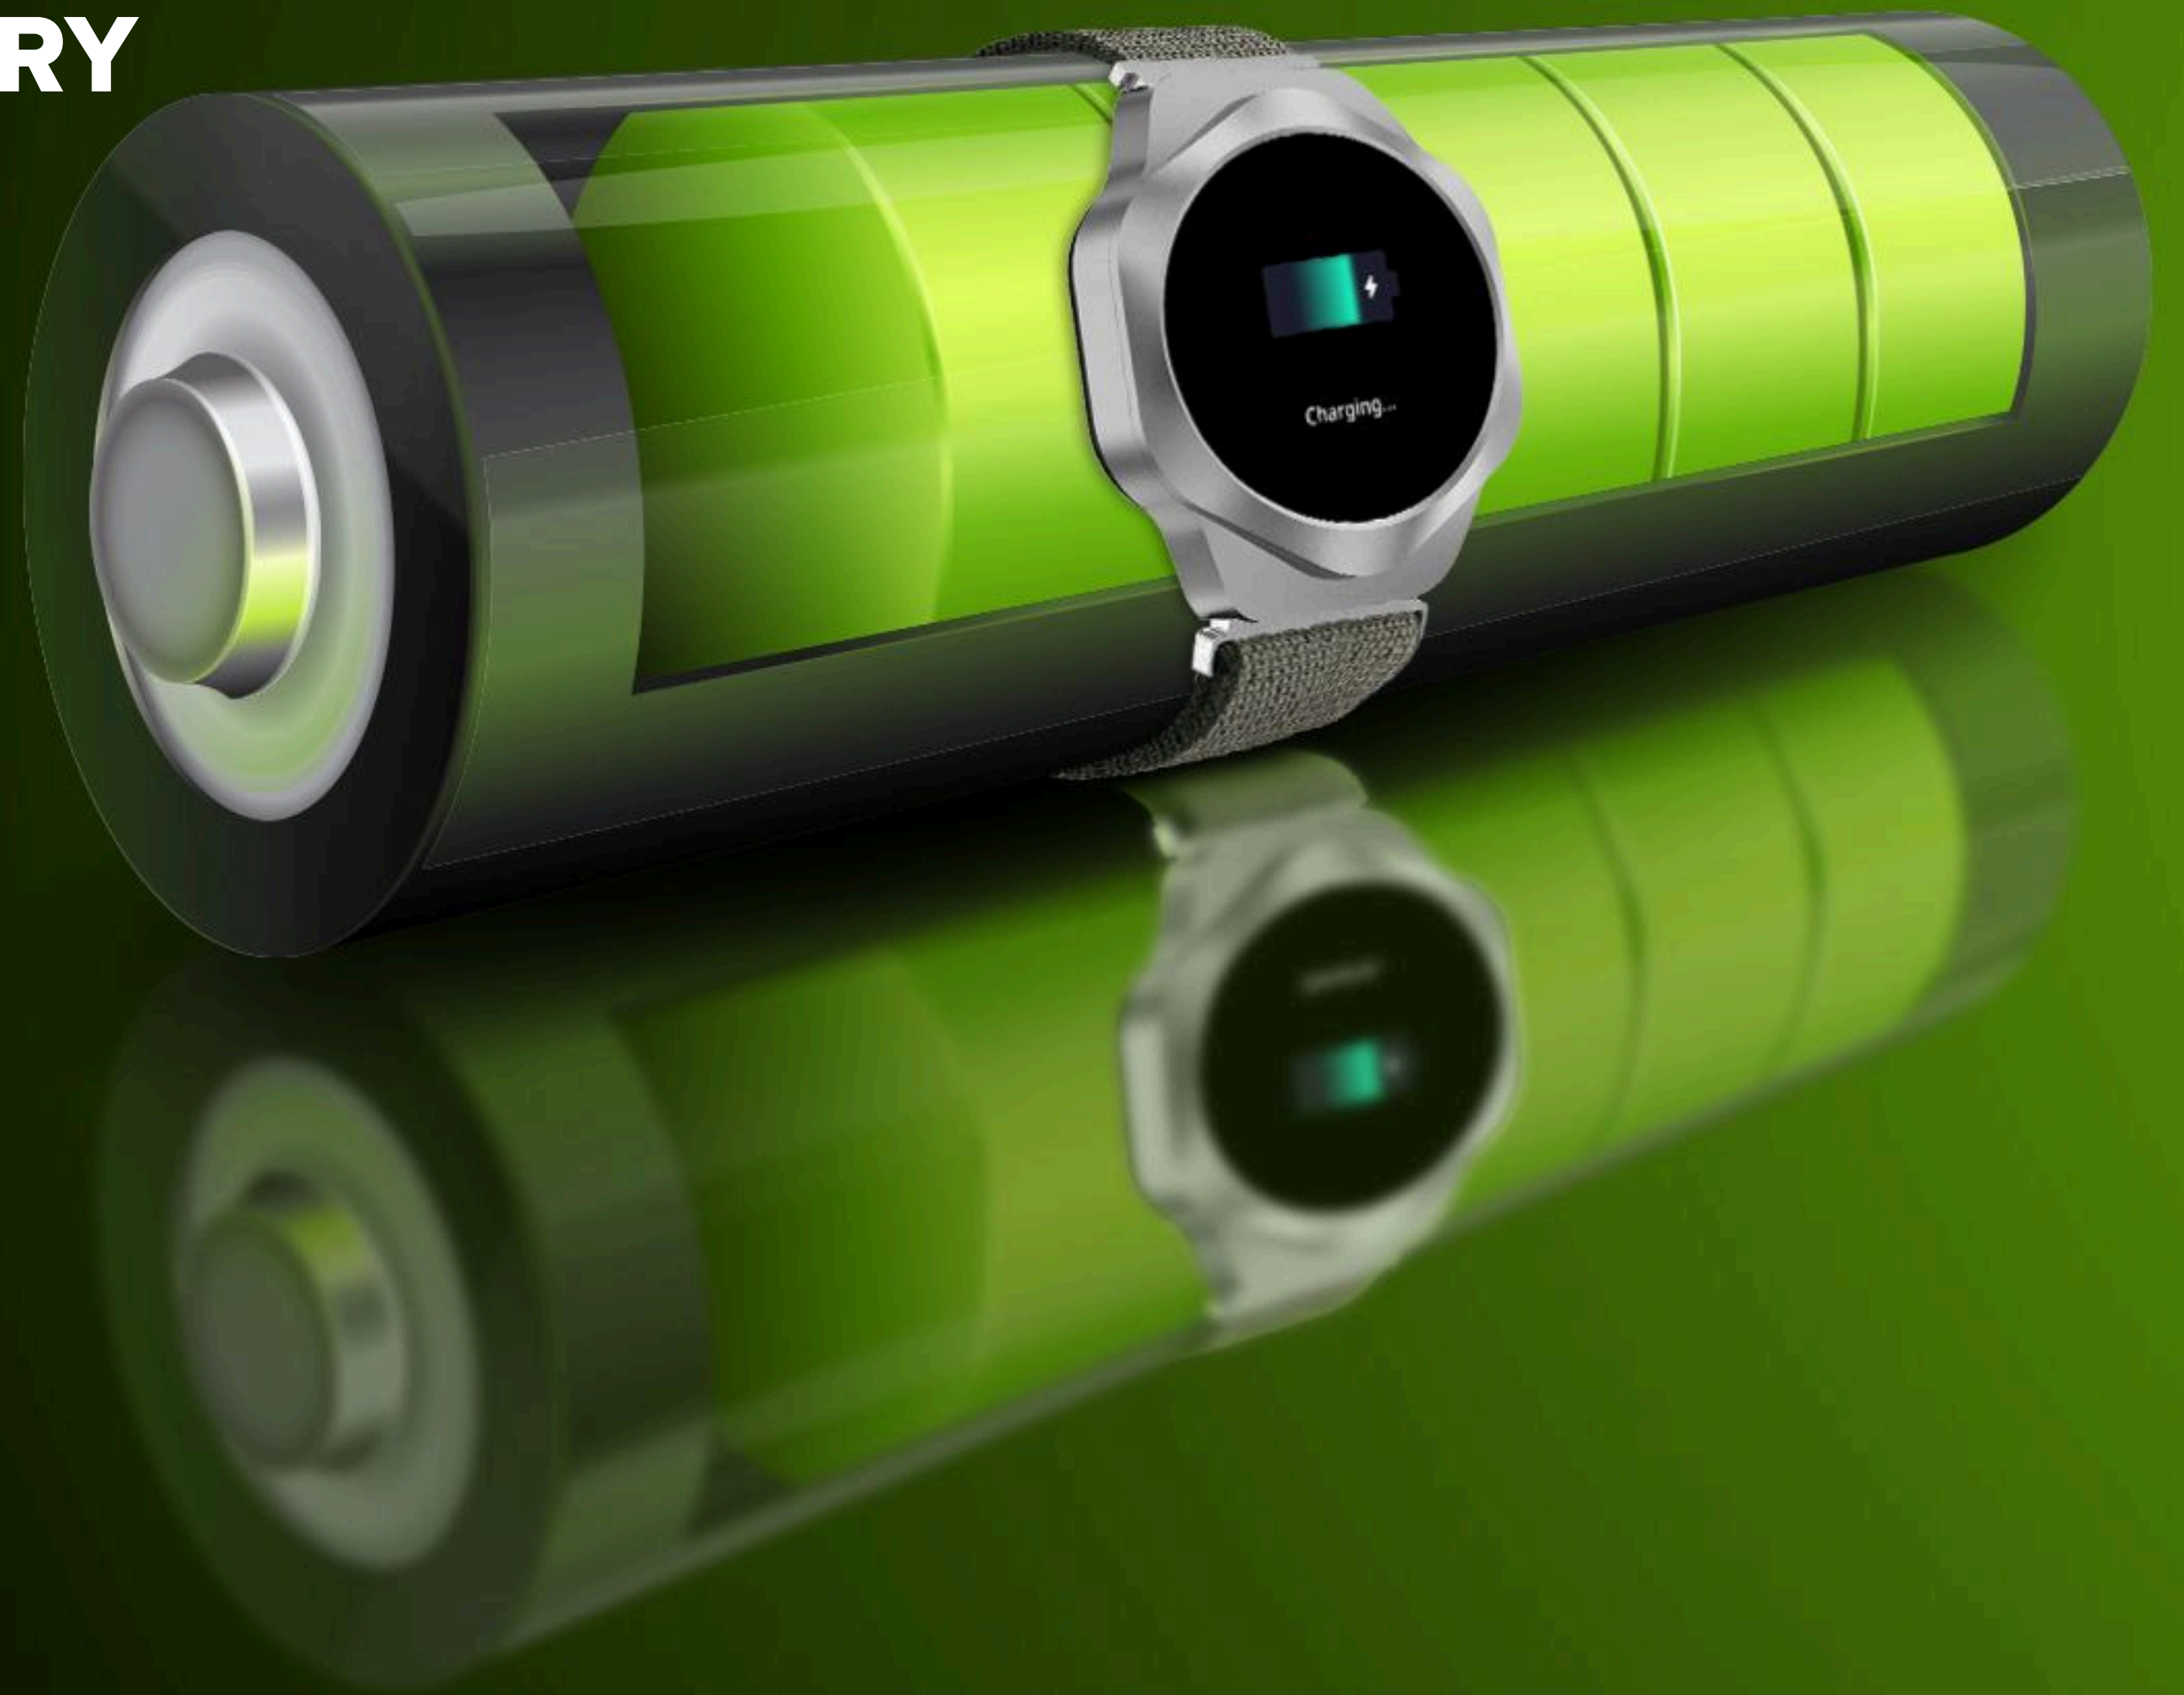

RICH DISPLAY

Vibrant colors and clear visuals. Enjoy stunning images and easy-to-read text. The high-resolution screen provides a clear and immersive viewing experience.

EXTENDED BATTERY DURABILITY

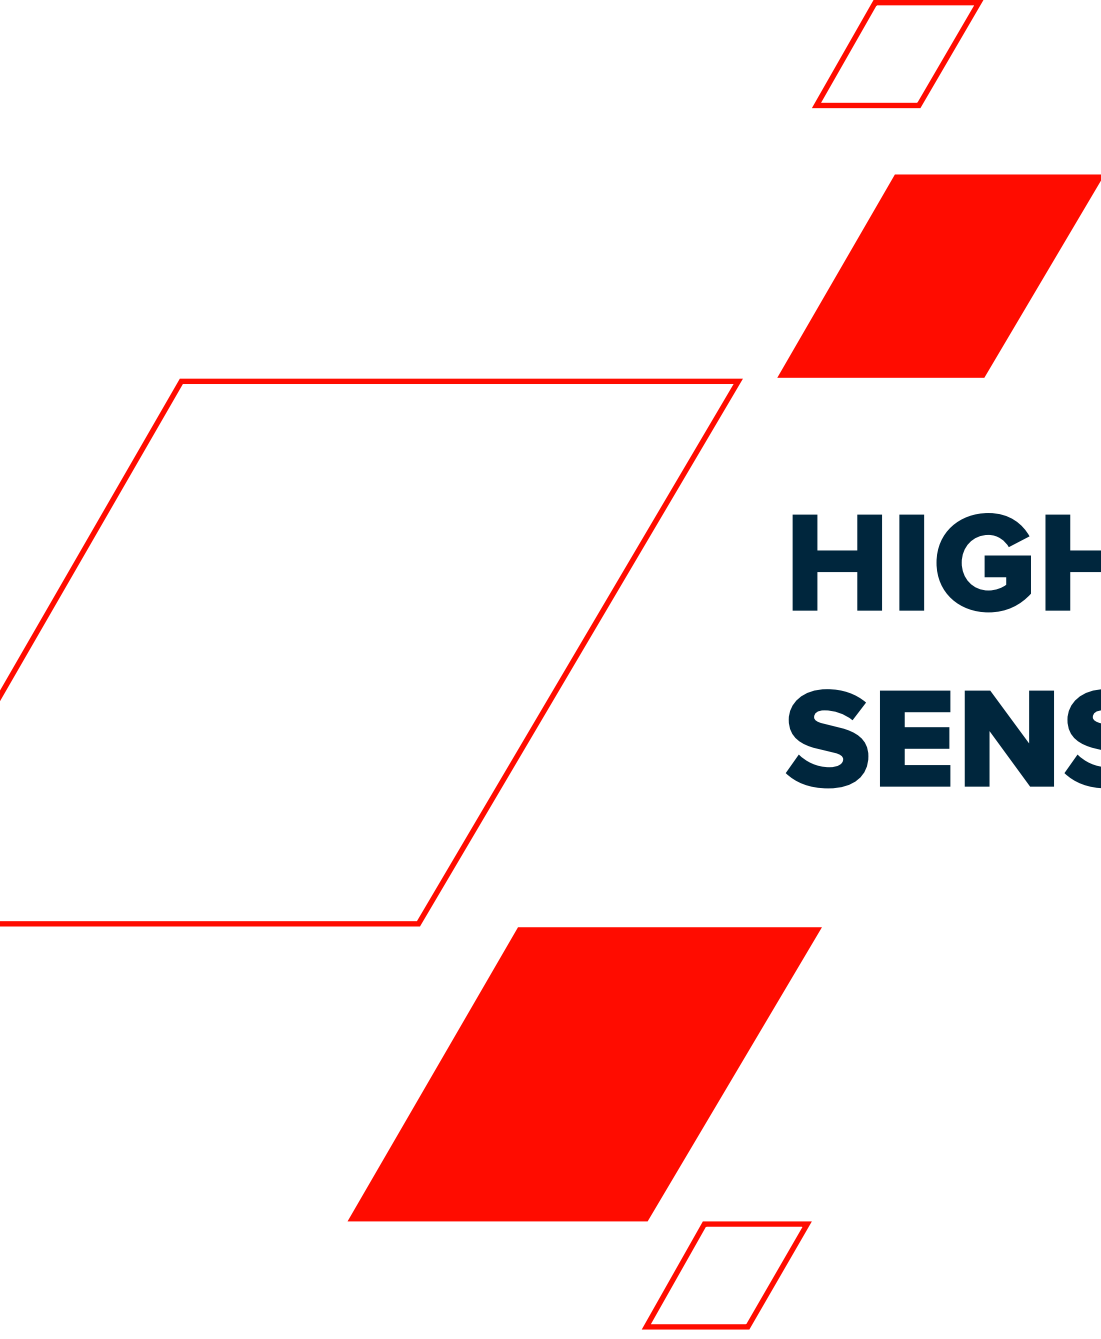

Long-lasting battery for 11 days in the row. No need for constant recharging, so you can stay connected and active without interruption.

IP67 WATERPROOF

Durable for any weather or activity. Wear it while wash your hands, running in the rain or sweating during intense training. The IP67 waterproof rating ensures it can withstand harsh conditions.

HIGH-QUALITY SENSORS

Accurate tracking and measurement. Rely on reliable data for your health and fitness goals. The Hexagon is equipped with advanced sensors to provide precise measurements.

A top-down view of a person's hands on a light-colored wooden surface. The left hand holds a white coffee cup filled with black coffee. The right hand is resting on the surface, wearing a black smartwatch with a red and black digital display. The watch face shows the time 08:33, a heart rate icon with '88', a battery icon with '100%', and a step count of '41243'. To the right of the watch, three different watch straps are laid out: a black one, a grey one, and a silver one. On the left side of the image, there are several teal geometric shapes, including a large parallelogram and smaller trapezoids, framing the text.

EXPRESS YOURSELF

Customize watch faces and straps. Show off your unique style and personality. Choose from a wide variety of options to match your preferences.

CANYON LIFE APP

Manage smartwatch, access data, and customize settings. Easily control your device and view your health information. The Canyon Life app provides a user-friendly interface for managing your smartwatch.

USEFUL TOOLS

Convenient tools for your everyday life. Use the stopwatch to time your workouts or activities, set reminders with the alarm, and perform calculations quickly and easily.
